Highworth Research – Single Family Offices

Overview

Highworth Research Limited are a market intelligence to the global wealth management industry and this solution provides a Single Family Offices (SFO) database to those who wish to engage professionally with SFOs, such as asset managers, wealth managers and associated professions. This is the largest database of SFO outside of the United States. The solution has sophisticated search, filtering, bookmark and reporting tools.

Rather than creating a complex online administration tool, all the data is maintained using FileMaker Pro which allows rapid development and the flexibility required with the data being pushed online.

Features

Promotion Site <https://www.highworthresearch.com>

Commissioned 2018

Sector Financial and Asset Managers

Location London

Platform AMA DataSet – Strata CMS

FileMaker Pro – for administration

- Fully searchable online database
- Powerful filters which are simple and intuitive to use
- Build customised reports
- Export search results to Excel
- Download PDFs of family office profiles and contacts
- Bookmark searches
- Easy to use administration of subscription and data

The database can be searched across all records with the look and feel of an Excel document. This includes sorting of columns and export. Each entry can be viewed in more detail and saved as a PDF if required.
